ing Hoyt Pearls.

New York, Jan. 2-That pearls are emblematic of tears is more or less proved by the case of Schade vs. Hoyt, which comes up for trial this month. Miss Schade found a \$25,000 necklace be-kinging to Mrs. Colgate Hoyt, and when she returned it to get the offered reward of \$5,000, she received just \$100. Then she brought suit, through her father, being a

Remedy to Every Sufferer.

I hold the secret of a discover, which has never failed to our women of piles or female weak new. Falling of the womb, paint, mentrual periods, icucordea, granulation, ulceration, etc. I now offer this price, essert to the women of America, knowing that it will slawly effect a cure, no matter how long for have suffered a cure, no matter how long for have suffered a cure, no matter how long for have suffered a cure, no matter how long for have suffered to the state of the state is in the blackmall category.

The troublesome necklace is considered one of the finest of its size in this country and was worn by Mrs. Hoyt to a bell carry last April, when the state of the size is the state of the size is the state of the size in this country and was worn by Mrs. Hoyt to a bell carry last April, when she arrived home it was missing. Mr. Hoyt advertised through Tiffany's that he would pay \$1,000 for its return.

FRANK H. BROOKS. COURT TO DECIDE ON PRIZE. Girl Sues to Get Reward for Find-

Receiving no response he increased the reward to five times that amodata.

Three days after Mis, Hoyt had lost the necklace, Harriet Schnde, employed in a Twenty-Third street department store, found it in Twenty-Second street. Not knowing its value, she wore it to a social functions on the East side near her home. I halfy, a jeweler saw the necklace and told Miss Schade its real value. He knew of the reward offered by Mr. Hoyt and the girl returned it the same day, receiving what she thought was the \$5.000.

On counting the roll of bills which Mrs. Hoyt had given to her, she found it to contain just \$100.

The present suit is the result. Mr. Hoyt maintains that Miss Schade kept the pearls too long to be entitled to the full reward.

ANGRY MONKEY BITES CHILD. Fierce Pet Inflicts Serious Wounds in Short Time.

REPUBLIC SPECIAL San Francisco, Jan. 2.—Freeing himself from the chain that held him, and stealthily climbing a high board fence, Jocko, the pet Filipino monkey kept by Hans P. Jensen of No. 53 Sixty-sixth street, made a flerce attack upon 2-year-old Willie Ja-

Utica, N. Y., Jan. 2.-Major E. M. Burns, manager of Doctor W. Seward Webb's interests, says that published re-ports that Doctor Webb would take down the fence around his Adirondack preserve. the fence around his Adirondack preserve, thus permitting the game to roam at wil, and thus throwing watercourses open, are untrue, and are very annoying to Doctor Webb, as he fears that well meaning persons may be misled.

Forest fires destroyed sections of the fence and permitted the escape of eik, mouse, deer and other animals from the inclosure. Most of the clk have, however, returned to their old haunts, and Doctof Webb is preparing to rebuild the fence.

GREAT RESEARCH IN THE SOLAR SYSTEM.

Carnegie Institution's Year Book Contains Plans for Observatories Near Los Angeles.

TWO STATIONS ARE PROPOSED

Recommendations Are Made for Archaeological Investigations in Greece and Asia Minor.

REPUBLIC SPECIAL

Washington, Jan. 2.—The year book of the Carnegie Institution, which will be issued in a few days, makes interesting an nouncements of the work and plans laid for scientific research throughout the world in many different branches of science. It shows that the institution has total assets of \$10,161,500, and a belance on hand in the treasury on November 1, last,

The appropriations made for the comin year are \$100,000 for reserve funds; \$10,000 for publication fund, \$99,000 for administration, \$130,600 for grants for larger proj-

for publication fund, \$99,000 for administration, \$120,000 for grants for larger projects, and \$290,000 for special grants.

The report of the Committee on Observatories advocates the establishment of an active astronomical station in the Southern Hemisphere, for the reason that there is needed in certain special lines a greater output of astronomical observations which can be obtained only in the Southern Hemisphere. This, it is thought, may lead to important discoveries. The work of observation proposed probably could be concluded within ten or twelve years.

"The greatest obstacle to a clear view of the stellar problem," says the report, "is the comparative lack of information about the stars in the far southern sky, that are invisible to northern observers."

The committee also recommends the establishment of an observing station for soiar investivation at an elevated point where the atmospheric conditions should be of exceptional excellence. Mount Wilson, a few miles east of Los Angeles, is suggested as the main station for the proposed solar observatory. It has an altitude of about 15,000 feet, is suggested as the main station for the proposed solar observatory. It has an altitude of about 15,000 feet, is suggested as the site of an auxiliary station for the special observation of heat radiations in relation to the selar constant.

The investigations proposed by the solar observatory relate to the sun's radiation, mainly with reference to its suffect on the earth; to the solar constant.

The investigations proposed by the solar observatory relate to the sun's radiation in relation to the selar constant.

The investigations proposed by the solar observatory relate to the sun's radiation and teleference to the sun as a typical star and to the evolution of stars like the sun from nebylae.

T. D. Seymour, who was commissioned by the institution to thake archeolorical investigations in Greece and Asia Minor and report on the opportunities for research there, reports that Corinth is exceedingly important, that

searching for the body is placed a which includes the \$5.000 reward was offered.

Mr. Openhym's interest in the f William Openhym & Sons is estim \$746.254. He had \$53.000 insurance life, together with other personal erty, making the gross personal \$844.572.

From this several deductions are including the expenses of recoveribedy and of the administration of tate, the latter being \$53.000.

Before his death Mr. Openhym m made.

Mr. Openhym disappeared from his home on March 20 last, and it was supposed that he had leaped or fallen from High bridge. The amount expended in

FACTS of Vital Importance to **Every Sufferer From Blood Poison**

FACT OHE - It takes time to tell thether you are permanently cured by a reatment, or merely patched up for the FACT TWO—The Cook Remedy Co. is the only company or medical association in existence that has been treating Blood Poison long enough to know that its patients are cured to stay cured.
FACT THREE—The Cook Remedy Co.
has many patients who were cured by its
masic remedy eighteen years ago, who are

today sound and well.

FAGT FOUR Many patients that were cured by the Cook Remedy Co. eighteen years ago now have children grown to manhood and womanhood in perfect health cured by the Cook Remedy Co. eighteen your money back.

Yours ago now have children grown to manhood and womanhood in perfect health of treatment known to the medical professand without a blemish.

FAGT SINE — Good health is the most important thing in the world to any person.

FACT FIVE—The Cook Remedy Co.
is the largest and the only successful
company in the world that makes the
cure of Blood Poison a specialty.
FACT SIX—Patients cured by Cook
Remedy Co. are constantly passing succesfully the very rigid examinations of the
most conservative life insurance companies, and are passing the examinations
for admission to the army and navy of the
ligited States. United States.
FACT SEVEN — If you take CoopRemedy Co.'s treatment under their guarantee you are absolutely sure of a cure or
your money back.

ABOVE NIHE FACTS ARE ABSOLUTELY UNDENIABLE.

The Cook Remedy Co. solicit the most obstinate cases and challengs the world for a case they cannot cure. This disease has always baffled the skill of the most ominent physicians. For many years the Cook Remedy Co. have made a specialty of treating this disease, and they have unlimited capital behind their unconditional guaranty.

You can be treated at home for the same price and with the same guaranty. With those who prefer to go to Chicago the Cook Remedy Co. will contract to cure them or pay railroad and hotel bills and make no charge if they fall to care.

Contagions Blood Poison begins usually with a little billater or sore, then swelling in the groins, a red cruption break out on the body, sores and ulcers appear in the mouth, the threat becomes ulcerated, the hir, eyebruws and lashes fall out, and as the blood becomes more contaminated, copper-

colored splotches and postular eruptions and sores appear upon different parts of the body, and the poison even destroys the bones.

The Cook Bennedy Co. has a specific for this lor thome disease, and cures it even in its wu. I forms. It is a perfect antidote for the powerful virus that pollutas the blood and penetrates to all parts of the cystem. Unless you get this poison out of your blood it will ruin you and bring disgrace and disease upon your children, for it can be transmitted from parent to child.

Write for their free home treatment book and learn all about contagions blood poison. If you want bring the control of the powerful with the property of the p
